Memorandum

To: Mayor and Council Members

From: Shelley Broxton, CDD Recommendation from Waynesboro Planning Commission

Date: February 19, 2026

Re: Planning Commission Recommendation on Zoning **Map** Amendment for
869 Waters Street (W05-125)

At the February 19, 2026, regular meeting, the Planning Commission considered a request from property owner **Byron Duvernay** to amend the zoning classification of **869 Waters Street** from **R-2 Residential Single-Family** to **R-3 Residential Multifamily** to support the construction of a duplex rental property at this site.

After staff review, applicant comments, and Commission deliberation, the Commission took the following action:

Recommendation: Recommend Approval with Conditions

Condition: The property **must be developed exclusively as a duplex**, consistent with the applicant's stated intent and Planning Commission approval motion.

Findings Supporting Recommendation:

1. The proposed duplex use is compatible with surrounding residential development patterns.
2. The R-3 designation accommodates duplex development without enabling higher density than the Commission intended.
3. The applicant affirmed commitment to duplex-only development.
4. All building plans will undergo Historic Preservation Commission review as required for this district.
5. The Georgia EPD Underground Storage Tank (UST) Program is currently evaluating the site for a possible former underground gasoline storage tank, as historical records indicate a neighborhood gas station once operated at this location. No development permits will be issued until it is confirmed that the soil and groundwater conditions pose no risk and the property is safe for future use.
6. The request supports increased housing availability within the city.

"THE BIRD DOG CAPITAL OF THE WORLD"

Thank you for the clarification regarding duplex-only development at [869 Waters Street, Waynesboro, GA](#). In response, I am proposing a compliant single-story duplex with the following dimensions:

Proposed Structure:

- Total Building Footprint: 61 feet × 40 feet (2,440 sq ft)
- One story
- No garage
- Two dwelling units
- Each unit: 3 bedrooms, 2 bathrooms

Lot Size:

- Approximately 0.33 acres (≈14,375 sq ft)

Lot Coverage Calculation:

- Building footprint: 2440 sq ft
- Lot area: 14,375 sq ft
- Approximate lot coverage: 83%, below typical maximum coverage thresholds

Based on these dimensions, the proposed 61' × 40' footprint fits comfortably within the buildable area of the lot and remains consistent with duplex zoning standards. Final placement and compliance will be verified through the formal site plan submission.

Please let me know if any additional information is needed prior to submission.
